

## **ECMPS 2009 Quarter 4 Release Notes**

### **I. Introduction**

The 2009 Quarter 4 release of the ECMPS Client Tool includes new functionalities, enhancements, and a number of bug fixes.

### **II. New and Modified Functionality**

#### **A. Emissions**

- Added ability to generate a non-operating emissions file.
- Added ability to export QA Status Analysis data.

#### **B. Monitoring Plan**

- Added ability to create monitoring plans for locations that are not going to be operational for more than a year into the future.
- Added a column in the upper grid of the Add/Edit screens for the component serial number.

#### **C. Submit**

- The Submission Log now shows submissions by all agents of the facility.

#### **D. Evaluate**

- Added ability to export evaluation results to Microsoft Excel.

#### **E. Reports**

- Added new User Locks Report to show which facilities are locked, and by which users (under the "Help menu).
- Added the monitoring plan status to Table 1 of the Feedback Report.
- Added Emissions Comments to Feedback Report.
- Added monitoring plan comments to the Monitoring Plan Printout Report.
- Added GP indicator to QA/Cert Test Details Report.

- Made all report boxes re-sizeable so more facilities can be viewed at once.
- Added User ID to File Import Validation Report.
- Added date filter to QA Reports.

#### **F. Help**

- Updated several topics to reflect new Client Tool features.
- Added context-sensitive help buttons to additional screens and reports.

#### **G. Update Utility**

- Added option to view release notes when updating.
- Updating the Client Tool software no longer require users to log into Client Tool. When new versions of the Client Tool software are released, the files required to update are posted on the [Update Shared Database page](#) of the ECMPS Support Website.

### **III. Fixed Issues**

#### **A. Emissions**

- On the Mass Oil Calculation tab of the View Emissions screen, the calculation of values in the View Totals panel was corrected.
- The Date Submitted on the Emission Data Retrieve Screen now displays the correct date on which the emissions data were submitted to the EPA Host System.

#### **B. Monitoring plan**

- When generating a Monitoring Plan Printout Report, an error no longer occurs if the "View Active Data Only" check box is checked.

#### **C. Synchronization**

- An issue was fixed in which operating supplemental data were not being synchronized with the EPA Host System.
